| <b>Description:</b><br>In Table 4.3, Reset and Supply Monitor, of the EFM8UB2 revision 1.2 data sheet, the Max Accuracy columns have been updated to indicate 1 ms VDD Ramp Time.                                                                                                                                                                                                                     |  |                                          |                            |
| <b>Reason:</b><br>Silicon Labs is issuing this change notification to the EFM8UB2 data sheet in order to correct a typographical error regarding the VDD Ramp Time listed in Table 4.3 Reset and Supply Monitor of the data sheet.                                                                                                                                                                    |  |                                          |                            |
