INDUCTORS

⊗TDK

Inductors for power circuits Wound ferrite VLCF series

VLCF5028-2 type

FEATURES

O Magnetic shield type wound inductor for power circuits.

O Low-profile product.

O Magnetic shield construction with ferrite core.

○ Operating temperature range: -40 to +105°C (including self-temperature rise)

APPLICATION

Power source inductor for mobile devices such as HDDs, DVCs, and DSCs
 LCDs, other DC to DC converters

* Rated current: smaller value of either Isat or Itemp.

Isat: When based on the inductance change rate (30% below the initial value)

Itemp: When based on the temperature increase (temperature increase of 40°C by self heating)

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

I				
If the storage period elapses, the soldering of the terminal electrode	es may deteriorate.			
\bigcirc Do not use or store in locations where there are conditions such as	gas corrosion (salt, acid, alkali, etc.).			
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature does not exceed 150°C. 				
 Soldering corrections after mounting should be within the range of t If overheated, a short circuit, performance deterioration, or lifespan 	-			
O When embedding a printed circuit board where a chip is mounted t the overall distortion of the printed circuit board and partial distortion				
 Self heating (temperature increase) occurs when the power is tur design. 	ned ON, so the tolerance should be sufficient for the set thermal

O Use a wrist band to discharge static electricity in your body through	the grounding wire.			
O Do not expose the products to magnets or magnetic fields.				
O Do not use for a purpose outside of the contents regulated in the de	livery specifications.			
 The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition. The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property. If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us.
